

This comment is in opposition to the expansion of LPFM stations. By this action the LPFM station could take priority over many fm translator stations like K-Love. K-Love serves many of us in our local communities with wholesome, family oriented programming which is very hard to come by these days. They also raise money for various charities in our community which would not exist if they were replaced. I believe it is in the public interest to keep k-love and other stations like them from being replaced by the LPFM stations. In this day and time we need all of the positive and encouraging messages we can get. If K-Love was replaced it would be a sad and extreme loss to many communities. Thank you.
